

Anatomy Laboratory Rules:

1. You have an extraordinary opportunity taking a cadaver-based human anatomy course as an undergraduate. Please be aware that this experience was made possible by those who donated their bodies for your education. Make the most of this unique opportunity and always conduct yourself in a manner that exudes the utmost respect for the cadaver.
2. Laboratory attire: Gloves are required when handling the prosected material. Shoes must adequately protect the top of the foot. Open-toed sandals are not allowed.
3. Cameras and unauthorized personnel are not allowed in the laboratory without faculty permission.
4. No eating, drinking, or smoking in the laboratory.
5. Cell phones are not permitted in the laboratory.
6. At all times, laboratory materials (bones, models, charts, etc.) must remain in the anatomy lab.

Thanks for your cooperation
